6th Grade Human Sexuality and Abstinence Education

Dear Parent/Guardian:

We are excited to inform you about our human sexuality and abstinence education program. The new program was adopted in May of 2016 and will be implemented in the 2016-2017 school year. **Draw the Line, Respect the Line™** is a five-lesson curriculum that your child has the opportunity to participate in during their 6th grade Health class. The curriculum provides an emphasis on non-sexual situations where youth might experience peer pressure. Examples might include stealing, using alcohol, or smoking. The lessons are based on these contexts and feature limit setting and refusal skill instruction. At the end of select lessons, a parent interview activity will be sent home with your student to encourage parent-student discussion about the material being presented in class. Our belief is that this invaluable educational process is best when shared by the home and school. We hope that you will take advantage of the opportunity to review this important material at the parent information session held on your campus (information located below) to better prepare yourself for the parent interview activities and to help reinforce material taught in the classroom at home.

Please complete the permission slip below, detach it, and send the form back to your student's 6th grade health teacher. A student will not be able to participate in this valuable program without your written permission slip. If your student does not have written permission to participate in the program, alternate educational activities will be planned for your student. If you have any questions or concerns, please do not hesitate to contact your child's teacher. Their contact information is below.

Sincerely,

Rachel Naylor
Director for Physical Education, Health & Athletics

For your convenience, if you are unable to attend one of the parent sessions offered, you can access an online version through Parent Portal.
